Bachelor

Faculty of Applied Mathematics and Informatics

## 05 EXPERIENCE / IT RELATED EDUCATIONAL PRACTICE

Feb 2021 — May 2021

### Expandas

Expandas is a telegram bot that helps you manage shared costs with your friends. People can use it when going somewhere together and paying money for each other. With the help of this bot, you can see how much money you should return to certain people. The number of debts is minimized because of the algorithm which reduces transitivity.

#### Tools & Technologies:

Python 3, Django, NGINX, PostgreSQL, Google Cloud Platform, Git and GitHub, Docker, Jenkins, Telegram Bot API, JWT Tokens

Jul 2021 — Oct 2021

Lviv

### Sports Hub

Sports news site focused exclusively on sports activities will allow users to effectively manage the news they want to see thus helping fans and people interested in sports to address the issue of information overdose on the web and save time when looking for the news consistent with their interests.

#### Tools & Technologies:

.NET 5, ASP.NET Core (MVC), Razor Pages, Entity Framework, MySQL, Git and GitHub
